## **The Pervious Hand Roller** **& Groover**

**The answer for rolling compaction and cutting expansion joints in Pervious Concrete**

- 36” tube roller, 6” diameter, with 1 ½” x 3/16” center groover.
- Tube can be filled with water through plugs on the ends to add weight.

- Uses standard 1 3/4” snap handles.
- Heavy duty bearings ensure a smooth roll.
- Also available flat roller for cross rolling
